
Instapad 2.0 by Gonçalo Gil and Danny Weiser produced by Gee Magic

The magician introduces the "**Instapad 2.0**" by saying that it will be important in a few moments and he can put it on the table, or give it to a spectator.

A card is freely chosen and signed. Then, the magician can perform his favourite card routine, keeping the "**Instapad 2.0**" aside for the big finale.

Magically, the signed card vanishes from the deck. At that moment, the magician picks up the "**Instapad 2.0**" and tells the spectators that their card is in the pad, and a magician is holding it. When the magician starts to flip the pages, an animation will start and the signed card will pop out from the pad!

- You will produce the signed card
- Instant reset
- There is no switches of any kind
- Everything can be examined
- Easy to do
- You can perform it surrounded (angle proof)
- You will finish 100% clean (nothing to palm or discard)
