## **Royal Zen (RED/GOLD) Playing Cards by Expert Playing Cards**

Expert Playing Card Co changed the playing card world when it introduced hot stamped foil to playing card backs. The second deck ever produced with this technology was the Royal Zen, a beautiful deck design using a high quality sideways tuck with foil and embossing.

Now, with the new release, Expert has redesigned gold foil elements on the back of each card, with metallic ink on the card faces and a luxurious soft touch material with high relief embossing on the tuck. This brand new red version includes 54 Master finish cards per deck.

This amazing reboot is available now! This custom deck of cards is available for retail at our partner site [Conjuring Arts](#).
