
The Mask by Mathieu Bich and Buddy Stein

Now you can vanish or produce the world's most iconic object, a 'Blue Surgical Mask'.

This specially made silk mask with strings appears identical to an ordinary blue disposable surgical mask.

The Mask is 100% silk, expertly printed, and crafted to fit in a standard thumb tip.

It is ideal to produce, vanish transpose, or use for any of the classic silk effects.

Included is a link to a one-hour tutorial video, that covers basic to advanced thumb tip techniques, special mask handlings, managing angles, subtleties, steals, loads, ditches, and several presentation ideas, including Vernon's classic 'Bill to Silk', but now using an item that every spectator can relate to.

Please note that this silk mask is NOT a real mask. It does not provide any protection against viruses (Covid 19 and others...)

"I love topical magic, and vanishing masks is high on my reality list."

- **Shawn Farquhar**

"This trick is nothing to sneeze at."

- **Garrett Thomas**

"A classic effect with a modern hygienic twist that actually ends clean."

- **Paul Wilson**

"As an international magic dealer, I fell in love with this effect. It is timely, versatile and clever!"

- **Mike Shelley**
