
Black Roses Lavender (Marked) Edition - Pokerdeck - Markiertes Kartenspiel

Thanks to the easily readable yet very well hidden marking system in the floral back design you are able to see within a second which card is in front of you without looking at the face of the card. You don't need to learn a system and you can hand out the deck for a shuffle without having the fear to get caught. Just take a quick peek at the top left rose on the back design to find out the value.

Designed with magic in mind, including several reveals on the court cards, a double backer and an unmarked 2 of Diamonds duplicate. The summer lavender tone with redesigned face cards printed on premium thin crushed paper stock with traditional cut gives the deck an up to date and modern feel.
