
Switch Cup by Jérôme Sauloup & Magic Dream

SWITCH CUP the revolutionary, invisible changing tool, which will allow you to perform a wide variety of effects and routines!

In 2013, Jerome Sauloup developed a cup to be able to change a banknote or paper into another.

In 2020, Magic Dream and Jérôme are once again teaming up after the best sellers CHOICE and LETTERS to offer you **SWITCH CUP**. This new version has many advantages: larger to accommodate different objects (corner of a card, folded card, post-it, ticket, paper, etc.), more modern design and still the same incredible working.

Switch Cup looks like any Asian restaurant cup, in which people leave tips, so that makes this accessory an object you would never suspect! This cup contains a diabolical secret, making it THE perfect tool for magicians and mentalists.

Imagine being able to change one banknote into another and then reveal the serial number of the latter without ever unfolding it.

Even better, a piece of paper is in plain sight in the cup from the start, the spectator then makes several choices and when the paper is opened, everything was predicted from the start.

And that's not all, just imagine a folded card in the **SWITCH CUP** lying on the table. After your best signed card routine, the card revealed in the cup is the spectator's! IMPOSSIBLE!

Easy to use and very simple to set up, **Switch Cup** will never leave your briefcase.

Highlights:

- Change any flat object in less than half a second
- Ingenious and completely undetectable
- Quick reset
- Perfect for table hopping
- Can be used in parlour conditions or on stage

-
- 8 routines included, nearly an hour of online video in English
