
Mojoe 2.0 by John Kennedy Magic

You're in a coffee shop, relaxing with friends and sipping your favorite cup of joe. You're waiting until the moment is just right for some...

MOJOE! "Watch," you say as you hold the coffee cup between your hands. Suddenly you turn it upside down and then crush it!

Total shock and fear ensue as everyone tries to escape the eruption of hot liquid. Moments later, in a stunned condition, they realize that the coffee has completely disappeared and that they have been very, very badly fooled!

With MOJOE you can make coffee vanish or even change into something else, like coffee beans! It works with paper cups (like Starbucks® coffee cups) and also ceramic cups. MOJOE also works with different drinks like Coke®, milk, etc.

MOJOE sets up in seconds and the durable gimmick lasts for years! You will receive the revolutionary MOJOE gimmick along with YouTube video teaching John Kennedy's favorite vanishes and changes.

BONUS: You'll also be able to sample a fine roast of Gregory Wilson's brilliant presentation for MOJOE - it's included! Ladies and gentlemen, it doesn't get any better than this!

Mojoe version 2.0 uses our latest improved gimmick that is more flexible and durable, and does not use a magnet like the original version.
