## The Constellation Gold Playing Card by Deckidea

The **Champagne Gold** version features a highly detailed design. The illustration has features like the moon-phases and the different zodiac signs hidden throughout the tuck-box for you to discover. The champagne gold foil helps accentuate these details and gives the tuck box a luxurious look; it also has embossing to enhance the tactile sensation when holding such box.

The interior of the tuck-box is filled with the same champagne gold foil, illustrating all the 12 zodiac in their respective star alignments. The effect is inspired by stargazing.
