
POST IT GONE by Julio Montoro and MagicWorld

Prepare for an entertaining and highly visual piece of magic by the incredible Julio Montoro.

Effect:

This spectator's freely selected card is clearly showed front and back and then lost in the deck which is placed on the table.

The magician begins writes a prediction and is confident that he/she has in mind their EXACT CHOSEN CARD. The post it note is turned around and it says "YOUR CARD". After a little laugh you explain that is not over yet. You remove and stick the post it to the reverse of the post it pad. With a shake the post it **VANISHES COMPLETELY**. You then spread through the cards on the table revealing ONE CARD which has the same **POST IT NOTE** stuck to it's reverse.

The playing card is turned over and it's **THEIR SIGNED SELECTION!**

- Comes with 2 handlings, easy and super easy!
- Generous extra vinyl gimmicks included.
- 2 Post it pads (1 gimmicked ready to go) and a spare for swapping out at end if you wish.
- Video instructions
- You can buy 38mm x 51mm refills from most stationary stores.

Please note while the effect comes COMPLETE almost ready to perform, please watch the video first as you must use a glue stick and stick 1 extra sticky note to the gimmick before use.
