
Perfect Cut Gimmick Deck by Jeff Nolasco and JL Magic

Perfect cut Gimmick Deck is an incredible visual effect that spectator's will love.

EFFECT:

The magician takes 2 decks. One red deck, one blue deck.

Spread the red deck to the spectator so they know it is a normal deck.

Shuffle the red deck and set it aside.

Spread the blue deck, let the spectator shuffle it.

Cut the red deck into 4 piles, and have the spectator do the same with the blue deck.

The magician puts a single red card face down on each of the spectator's blue cards and moves the rest of the red cards to the side.

Miraculously when the magician turns over the red card and then the top blue card... both cards are the same!

The number AND the suit match perfectly on EVERY one of the 4 piles!

You have made a PERFECT MATCH.

Super visual, impactful and the fools the spectator's every time!

Includes detailed instructions.
