## UP (Blue) by steve marchello

**UP** is a tremendous way for card levitation effect

- No threads
- No magnet
- No force

It's a classic magic card routine. pick a card, then sign it then put it back to the deck. But what's next will be shocking the spectator, they will experiencing having magic by touch the deck then 'the card' will float on their finger like they have their own magic.

You can even hand out the card when you're done!

- Instant reset
- Easy to learn
- Easy to perform

Enjoy!
