
Collector's Mini Pom-Pom Stick by Alan Wong

A personal favorite item of Alan Wong, long sold out and unavailable for years, is now available again in limited stock.

The Collector's Mini Pom-Pom Stick is easy to perform, colorful and fun to play with. You can adapt different scripts to suit your own style. Fits into your pocket and a very classy prop you can carry around for walk around close up performance.

Others just collect this simply because it is beautiful.

The Mini Pom-Pom Stick is about 10 cm long and made of solid brass with real gold-plated finish. There are four glitter color mini pom-pom balls at the ends and they are seemingly connected to each other in a magical way. But in the end when you open it up in the middle, nothing is connected and there is absolutely nothing to be seen!

The Collector's Mini Pom-Pom Stick comes with a nice storage box and you also receive a black velvet bag for carry it around and always ready for a little miracle!

Online video and pdf instructions are included.
