## FPS Coin Wallet Black by Magic Firm

***"Brent's new coin carrier is a lovely intersection of form and function. It's NOT a coin purse, which is fun, and it also has a devious secret that will appeal to all coin workers. I love mine."***

**- Joshua Jay**

When Brent Braun created the FPS Card to Wallet, he wasn't just trying to make a product. He was trying to solve a problem. How could he fit utility and versatility into a slim, stylish package that he would want to carry every day?

The **FPS Coin Wallet** is no different. Brent didn't just want another coin purse. He didn't want a bulky, old-fashioned bag with unnecessary hardware. He also didn't want an item that only held coins and couldn't perform other functions. He needed something that looked right at home next to his card wallet - slim, stylish, and practical, but that also had extra features for a wealth of magical applications.

Brent teamed up with Ryan Plunkett and after months of effort, they created the perfect everyday carry coin wallet. The FPS Coin Wallet holds up to five half dollar or four dollar size coins. The sleek, modern design compliments the award winning **FPS Card to Wallet** and fits comfortably in your pocket.

But it also contains a secret weapon... a unique hidden gaff that allows you to easily, quickly, and *invisibly* sneak coins and other small objects into and out of the wallet.

This means you can have your coins examined and then effortlessly add coins or gimmicks - or switch coins invisibly.

The **FPS Coin Wallet** can also be used to vanish or produce many small objects. The unique backpack hold out gives you invisible access to an additional coin or gaff, right under your spectator's nose.

When you buy the **FPS Coin Wallet** you also get full video instruction from Brent. He tips his hand not only on his favorite coin effects using the FPS, but effects with Sharpies, toys, and more.

You'll also get **Gregory Wilson's diabolical routine** using a borrowed finger

---

ring, a coin and a kickback moment that hits so hard your face will hurt.

The FPS Black Coin Wallet is made from 100% genuine top grain leather and is designed to perfectly compliment the smooth interior of the FPS Card To Wallet.

*"It's extremely clever, perfectly designed, and I love it."*

- **Eric Roumestan**

*"It really looks, works, and FEELS great. Millions of possibilities. Highly recommended!"*

- **Nate Kranzo**

*"Brent did it again. First his FPS Card To Wallet and now this reimagined coin wallet. Incredibly well made and devious construction allows for incredible magic."*

- **Ryan Schlutz**

*"New magic tricks that excite me the most are the ones that open the door to infinite possibilities for the performer. FPS Coin Wallet is not a trick...it's a perfect example of one of those gems that bust the doors of potential wide open! I absolutely love this devious little wallet!"*

- **Adam Wilber**

*"To just have something of this kind of quality to carry my coins in...and it also produces miracles...thank you Brent!"*

- **Jason Dean**

*"The FPS Coin Wallet is a versatile and practical tool perfect for your everyday carry."*

- **Caleb Wiles**

*"Worker, Worker, Worker!"*

- **Magick Balay**

*"Elegant and Versatile it's my newest everyday carry"*

- **Doug Conn**

*"Beautifully crafted, simple in design, and diabolical in function. Uses for this great utility item are limited only by your imagination!"*
