## D. DECK by Dominique Duvivier

The magician thinks of a card, the spectator thinks of one as well.

The spectator's choice is completely free.

However, when the magician shows the rest of the deck, all the other cards are completely blank!

All the cards turn out to be blank, except for the two thought of cards!

Strong points:

- No roughing fluid.
- Easy to do.
- Several routines explained.
- Bicycle Rider Back cards printed by USPCC
- Online video instructions.

*"A fantastic new effect destined to become a classic. It is a versatile utility deck limited only by your own imagination. Dominique has combined the best qualities of the 'Nudist Deck' ('Mental Photography') with the power of a 'Brainwave Deck'. The reset of all the included routines are unbelievably fast. Perfect for strollers and table hoppers. So jump in with both feet and take a bite out of this magical biscuit."*
