## **Comedy Breakaway Scissors by Martin Schwartz**

The "**Comedy Breakaway scissors**" is a great alternative to any breakaway prop. The scissors looks normal but suddenly falls apart when you hand it to a spectator. Or, you can have it break away in your own hands.

This classic gag has been a favorite of magicians, comedians, clowns and prop comics. It is a perfect prop for performers who do shows for children. It joins the Breakaway Wand, Breakaway Fan and other breakaway props as a sure-fire laugh getter. Comes complete with two scissors-gimmicked and un-gimmicked.

Remember FUNNY is MONEY.
