## Perfect Poker by Dominique Duvivier

THE REALLY **Perfect Poker** demonstration!

- The spectators freely decide EACH card making up EACH of the five poker hands.
- The spectators are free to choose which poker hand the magician gets.
- The magician wins with four Aces!
- And he proves that he had predicted his entire poker hand in advance (which cards and in which order).
- And what's more, there is an incredible ending.

Strong points:

- Very easy to do.
- A real fooler!

Several routines are explained.

You are provided with:

- Cards specially printed by USPC in Bicycle Rider Back.
- Video explanations with lots of additions and bonuses.

What they think:

*"**Perfect Poker** is really perfect! It seems absolutely impossible yet I know it can be done since I saw Mr. Duvivier do it! Ingenious."*

- **Bill Kalush**

*"It REALLY is perfect!!!"*

- **Christian Engblom**
