## Leo's Coin by Leo Smetsers

If you have ever met Leo in person you will know he is always performing. No matter where we go together he's doing magic. One of Leo's best kept secrets was his coin. I remember sitting in a restaurant in Italy with Leo when he started performing magic to the waiters. One of them called the boss over to see some magic. Leo reached in to his pockets and removed his keys and then proceeded to remove a coin shaped keyring. What followed was 5 minutes of entertainment. He did a which hand routine, a card effect, and some mindreading. The owner of the restaurant was so impressed he paid for all our drinks and even sat down and joined us for the next 30 minutes.

I'm glad that Leo has finally decided to release his coin and as you can imagine it has gone through so many stages of prototyping and production to ensure its the high quality you have come to expect from Leo Smetsers.

In the package you will receive:

- The custom designed and manufactures Keyring
- High quality deployment clasp for easy removal and attachment

A tutorial video unlocking the secrets of **Leo's Coin**. On this video Leo explains ten killer effects. Including effects for close-up, parlour, mix and mingle and stage.
