
PICKLE STICK RED / CHRISTMAS by Ickle Pickle

This version comes with a routine about a snowball fight at the North Pole. The elves were getting a little too rough and Santa Claus had to calm things down with a little Christmas magic!

2 sticks (wands) are shown held side by side, one with a tassel on a short string, the other one quite long. Pull the short one down and the long one goes up and visa versa. Take the sticks apart to show no connection and yet it still works

What we noticed is that in the world of magic there are extremely expensive sticks and extremely cheap (and cheaply made) sticks. We saw a need for a high quality stick for the working magician at an affordable price. We give you... the **"Pickle Sticks"**

Approximately 15" long
