## DREAM BOX PARTY by JOTA

A surreal prediction effect for **virtual or face-to-face shows** with a PRINTED reveal that will leave your audiences guessing.

With **Dream Box**, you start by handing out a special credential badge before the trick begins. You then have members of the audience create a unique and unforgettable "experience" by selecting various places, music, drinks, movies and celebrities.

Then, at the end of the routine, they look inside the credential to find a PRINTED voucher highlighting the exact choices that were just made.

This feels truly impossible! Like real magic!

NO Forces. NO Changes. NO Switches.

You'll be able to account for any possible combination.

Now you can choose between four different designs to make them separately or all together in the same act.

At **TIME TRAVELER**, spectators will be able to choose between experiencing famous moments, witnessing epic shows, wearing unique clothing or chatting with the most important characters in history.

In **PARTY** they will choose to be invited to a famous secret place, a movie projection, what will be the menu and how they want to arrive dressed up.

In **SPORTS** they will decide which high-speed vehicle they want to test, in what exotic place they would do that, the music they would like to hear and which famous athlete they would like the co-pilot to be.

In **CELEBRITIES** they will choose a place in the world to eat, a band to listen to, a drink to have and a celebrity to take a selfie.

- **Dream Box** is super easy to perform
- It reset in seconds
- Choices can be made by different people randomly.

- 
- It can play small enough for a single person or large enough for a big audience in a parlor magic setting.
  - Each **Dream Box** set comes with everything you need to perform including a comprehensive English/Spanish online tutorial featuring a variety of bonus ideas.

**Dream Box** refills are also available.

*"Fantastic product"*
