## **BIGBLINDMEDIA Presents The Mene Tekel Deck Blue Project with Liam Montier**

Bigblindmedia presents **The Mene Tekel Deck Project with Liam Montier** (BBM317) - The definitive guide to this essential gaffed deck

Comes with Bicycle brand Mene Tekel Deck (in Red or Blue) and one hour video download

The **Mene Tekel Deck** truly is a hidden gem in the world of card magic and might just be the most underrated gaff deck in existence!

What's more powerful than a stripper deck? More versatile than a svengali deck? Less known than an Invisible Deck? The Mene Tekel Deck that's what! This ingenious gaffed pack can truly be a cardhandler's greatest ally. It makes outrageously powerful magic possible with absolutely NO sleight of hand. But unlike so many other gaffed decks, it's not a one-trick pony. It can be your secret weapon in a huge array of routines.

Liam Montier takes you for a deep dive with this ingenious construction, teaching you how to handle it naturally, how to hide it in plain sight and how to wring every last drop of deceptiveness from it's devious mechanics.

Once you've mastered natural displays, shuffling and selection procedures, Liam will arm you with some simple (but powerful) routines to test out your new skills. Then you can step it up with three absolute barnstorming 'showpiece' tricks that will slay ANY audience.

And beyond that Liam will also look at ways of incorporating the world's most underrated gaffed deck with simple sleight of hand to REALLY elevate things into the stratosphere.

One deck - unlimited possibilities!
