Maybe you have been performing sponge ball magic the same classic way as everyone else.

There is no doubt that there are countless masters of sponge ball magic that have come before us.

This time, we want to show you something special with Sponge Balls.

We call it **Pure Cup**. It's a clear cup (may have yellow tint) with Sponge Balls.

There are no gimmicks.

Everything you see in the trailer is performed using pure sleight of hand.

All moves and techniques are modular and can be easily assimilated into your existing sponge routines.

**Pure Cup** by TCC Presents comes with an entirely translucent cup, made from resin. Resulting in a beautiful and durable cup. The cup is designed to resemble the rounded shape of the classic metal cup for the Cups and Balls.
