
Bicycle Cybershock - Pokerdeck

The peak of the cyberpunk universe's influence on pop culture was in the 80's and late-'90s, but we have seen the genre striking back into the mainstream over the last few years.

We wanted to create a deck that could reflect the exciting pop culture hype for the fans and, at the same time, have a luxurious look for cardists and magicians. There are very few decks printed with a cyberpunk thematic so far and even less from Bicycle® and rarely one with a 3D design. Therefore, this genre was a perfect match and a good choice for our unique style.

Each card was handcrafted and then 3D modeled from scratch. Although it is inspired by the incredible Cyberpunk 2077®, **Cybershock** has its own characters on the court cards, designed exclusively for this project.

Features:

- Printed by USPCC on Bicycle® Classic stock crushed thinner
- Unique design
- Magic Air-Cushion® finish
- Art by Fernando Matias, produced by Excelsior Playing Cards
- Limited Standard edition run of 1,900 decks
