
Mirror Standard Rubik Cube by Rodrigo Romano

Mysteries presents **MIRROR: Rubik's Cube** by Rodrigo Romano.

From the creator of Coin to Wallet and Osmosis comes **MIRROR: Rubik's cube**.

Mirrors are magic because they duplicate and transform reality.

You will be able to achieve this with **MIRROR: Rubik's cube**: duplicate multiple times a Rubik's cube or change it into different objects!

Rodrigo Romano introduces us three different, very visual and powerful routines:

- 1) You can multiply the cube a couple of times
- 2) You can solve the cube in a magical way
- 3) And transform the cube into any object chose at random!

We also include an interactive routine to perform on online shows.

INCLUDES:

- High quality Rubik's speed cube
- Set of special gimmicks
- Ultralight acrylic mirror
- Tutorial with different handlings and presentations (English / Spanish)

EASY TO DO

INSTANT SET UP

EXTREMELY VISUAL
