
I am ARRR by Abstract Effects

"It's absolutely brilliant! Both the premise and the method"

- **Shimshi**

From the creative minds of The Other Brothers comes an effect that is five years in the making - one of the very first concepts ever developed by the imaginative duo. Produced by Abstract Effects, "**I AM ARRR**" is a unique and surprising pendulum which provides you an opportunity to perform incredible mentalism with a shocking reveal!

For years, pendulums have been used by mentalists and psychics to create real magic, but now there is one that will not only allow you to tap into the power of the pendulum, but with this clever secret the spectator can actually find their own selected card. If that's not powerful enough, the pendulum will reveal their selection in its shadow!

The Other Brothers teach you a mentalism effect using the materials provided in "**I AM ARRR**" that will send shivers through your spectators and it all ends with a reveal like none other.

"**I AM ARR**" is perfect for intimate, small group settings and can be done impromptu as it is a simple, yet powerful tool. Prove once and for all to your friends and families that magic is real with "**I AM ARRR!**"

"Killer. Insane method and so CLEAN. Love this"
