## Fig. 23 Wonderland - Pokerdeck

"**Fig. 23 Wonderland**" and "**Fig. 23 Looking-Glass**" are companion poker-sized playing card decks designed by award-winning designer Stephen W. Brandt and manufactured in the USA by USPCC (Bicycle).

As part of the Fig. 23 brand, they feature flip-book style animation on the faces of each deck; "Wonderland" depicts Alice growing as a result of drinking from the "DRINK ME" bottle, and "Looking-Glass" depicts Alice reaching to Humpty Dumpty during his great fall. This deck not only showcases the original illustrations by Sir John Tenniel but also contains customized pips designed from those within such illustrations. The backsides are stylized collections of objects found within the books, such as a key, a spoon, chess pieces, and knitting needles.
