
3D by Nacho Montenegro - Pokerdeck

Our design philosophy centers on the belief that a deck of cards should complement, not distract from, a magical performance. Our **3D Playing Cards** are crafted to be minimalist yet striking, ensuring they are a subtle but appreciated part of the show.

Deck features:

- **52 Custom Faces:** We've taken the classic, legendary faces of playing cards and applied red and blue shadows to create a 3D depth effect.
- **Specialty Cards:** Two custom Jokers, one featuring a hidden card reveal for added intrigue.
- **Dual Reveals:** The card box offers two magical reveals, seamlessly integrating into your routine.
- **Gaff Cards:** Including a double backer and a blank-faced card for a wider range of tricks.
- **Artwork and Design:** The back design, inspired by vintage 3D glasses and the work of Charles Wheatstone, creates a subtle depth effect when viewed with the included glasses.
- **Traditional Cut:** A unique feature that offers a distinct feel preferred by many magicians.
- **Air-Cushion Finish:** For smooth handling and durability, ideal for regular use and professional performances.
- **Limited Edition:** Each deck is part of a special series, marked with a numbered seal for exclusivity.
- **Stacked for Magic:** The deck arrives sealed in a stack, facilitating powerful magic effects. Tutorials included will guide you in leveraging this stack for impressive performances.
- **Exclusive Community Benefits:** Purchasers of these 3D Playing

Cards will be part of an exclusive community where we'll share additional tutorials, feature talented magicians, and offer giveaways. Stay tuned for more exciting community-driven projects and collaborations.

- **Manufactured by the Best:** Produced by the USPCC: The most well-known brand among magicians and casinos, responsible for creating the renowned Bicycle playing cards and others, ensuring top-tier quality.
