
JUMBO COMEDY HEADPHONE by Alan Wong

This is the **Jumbo Comedy Earphone** for the growing earphone illusion designed perfectly to be done on the internet and zoom meetings!

The jumbo earphone is 21cm long, hollow inside and is very funny anyway you want to use it, except as a real earbud.

Please note this is only a giant display prop and there is no other function and no electronics inside. You cannot use it as a real earphone. Include one jumbo earphone prop only, no instructions included.
