
Play Dead V2 by Riffle Shuffle - Pokerdeck

The **Play Dead V2** is back with style! While the mixes of bold line and shape patterns with the 3D forms are kept the same, the teal-green look of the deck brings out a hint of seriousness to remind you to play with style.

The designer Steven Harrison has once again managed to bring back one of our classic Riffle Shuffle decks, this time, the Skull theme pops out of the design even more with the complementary colours and lines; A perfect example of why we should never forget to remain playful and stay bold. Keep playing - the game is never over.

The **Play Dead V2 Playing Cards** are printed by United States Playing Card Company with premium Bee crushed stock, air cushion finish. Full print inside and out, on premium stock with Embossed details.
