## **LUCID COIN (Gimmick and Online instructions)by Marc Oberon**

*"Easy to learn, super visual, a perfect wow!"*

- **David Stone**

*"A beautiful visual effect! I loved the ending to his Miser's Dream routine. Another example of Marc's great thinking."*

- **Ed Hilsum**

This powerful utility gimmick enables the performer to produce and vanish a large coin.

This 54mm coin pops into view from an empty hand with no discernible finger movement, making this perfect for use with a Miser's Dream routine.

Marc has explained how he integrates the **Lucid Coin** in his act and even explains his awesome climax of a waterfall of coins flowing from each hand.

Whether you are looking to perform a Miser's Dream or just need a super visual vanish or production of a large coin the **Lucid Coin** is for you.
