
Silk to PUPPY by Alan Wong

Here is the newest version of the silk to animal series, where you turn a white silk to an extremely cute Bichon Frise Puppy.

The fluffy puppy may just be a cotton ball with a face. In case you wonder, they actually exist! This is how the dog lovers groom them! The soft puppy is 5cm tall. You get a small white silk, a gimmicked toy puppy and a matching ungimmicked squeaky toy puppy that can be used for examination and to play with, or be your magic assistant to find your spectator's card instead of you.

This puppy is simply too cute!
