
Luxury Pad (Black) by TCC

After 140 continuous days of research and development, we have some new breakthroughs on our close up pad.

TCC PRESENTS **Luxury Pad**.

The surface is a custom pattern that we choose. It is the Vintage roll pattern, which is a fusion of both Chinese and Western style, and looks especially exquisite in the turquoise grey color that will be offered.

A total of 3 colors will be available.

The fabric is smooth and comfortable to the touch and it will not produce a 'color change' effect when you rub your hands across the surface. The intricate pattern exudes an impression of professionalism and elegance.

Supported by high-density sponge, the surface is softer and more professional. Not too hard, yet soft enough. The sponge and the fabric fit perfectly, and the excellent resilience highlights the fabric characteristics.

The base is a hard wood board, wrapped with black embossed lychee which has high integrity and is non-slip and wear-resistant.

For the packaging, we have used a high-quality black card envelope with unique window design. You get to intuitively feel the texture of the fabric and leather while simultaneously seeing the color match. Experience it visually and tactilely.
