## MUSIC BOX Premium by Gee Magic

Music is one of the most powerful art form that he have, now imagine when combine it with magic.

Effects:

1. You start by showing a music box and strip of paper with some holes. You start playing the music and they will not recognize the music. They choose a music and they imagine the song playing in their head. After that, they play the music box and the music that they are thinking starts to Play.
2. After the spectator choose a music you introduce a strip of paper and you ask the spectator to think of that music. You then start doing some holes on the strip. They insert the strip on the music box and the music that they are thinking starts to play.
3. Show them the music box and you start playing your favourite music. Then the spectator is asked to choose a music. And by magic the music that they choose starts playing in the same strip as your favourite music was played.
4. In this routine you will make your spectator believe that you place a music or melody in their head that was never there.
5. You place a prediction on the table and show a pack of cards with musics and melodies written on. You ask your spectator to choose three musics. Then you take of the three chosen musics and place them on the table. Yo ask them if it would be amazing if you guessed one of the songs. You show your prediction and its wrong . Then you make attention that every single card has some holes and those holes makes the music of your prediction. They won t believe and then you introduce the music box and you put the three chosen cards and your prediction together in music box and song that was written on prediction will play.
