N-PAD by Smagic Productions

N-PAD, incredible and unbelievable effects. Usually moving the signed "something" is difficult to control.

At Smagic, we love to do the impossible. Do you think signed coins, cards, rings... will move from left hand to right hand, or disappear and stay in the mini bag? With **N-Pad**, you can do just that. What's more, everything happens in the most intuitive way, so you don't have to spend time sneaking. No need. You will let the audience choose a coin or card and sign it, you can also borrow the spectator a ring, key... Then you disappear it under the palm of your left hand, and it will appear at right hand, or in the mini bag. You don't have to be quick, everything is slow, the audience controls everything in their eyes, they will believe what's going on is magic.

You will get a huge response from the audience.

Gimmick high quality.

N-PAD is made of high-grade aluminum frame, durable aluminum, so you will use it forever, other details are simple and easy to repair and replace.

Furthermore, you can use the **N-PAD** as a tabletop for your close-Up performances with tokens, coins... and so much more.

So you'll have a more elegant look with the N-PAD. Order now!

N-PAD admits a small audible "click" in some working environments.
