## Ambiguous (Black) - Pokerdeck

**Ambiguous Deck Set** is designed by a special and talented mentalist whose name is Sion.

From the moment you take out the cards from tuck box, you can feel it's extraordinary. The Tuck box of **Ambiguous (Black)** is gilded with red roses, which show the word 'Ambiguous Deck' with a sharp convex pattern. On the contrary, for the Tuck box of **Ambiguous (White)**, sold separately, the bronzing part is 'Ambiguous Deck', while the convex part is the rose .

The back and face of the cards are all specially designed with some hidden secrets. *Did you just notice that the pattern on the back of the cards are two people kissing with each other?*
