## **ECLIPSE - Pokerdeck**

The **ECLIPSE** - 'originals.' are premium, custom playing cards that catch the eye without drawing too much attention. They are the result of months of dedication, design, and testing to ensure a quality, polished product.

They are perfect for the humble cardist or magician, with quality card stock for optimal handling, performance, and durability. They feature a clean, yet sophisticated back design and fresh, simple colours that don't distract from the performance.

The face designs are mostly traditional, with slight color modifications to better match the deck's theme. There are 2 identical, fully custom Jokers that reflect the back design and create a sense of continuity and fluidity within the deck.

The deck comes with 2 gaff cards that magicians can take advantage of and use to spice up their performance, including a black face card and a double backer!

Printed by USPCC, the cards are of an exceptional quality and are durable.

The minimal branding of the tuck case helps to reflect the simple and minimalist design of the cards, as well as creating a continuous design theme throughout the deck.

This deck is sure to be an eye-catcher with its simple yet sophisticated back design, simple tuck box, and gaff cards!
