
Dark Kingdom - Pokerdeck

Inspired by old engravings and fairy tales about mysterious magic castles with dragons and the strange creatures that inhabit them, we've created a custom deck of playing cards: "**Dark Kingdom**". The dark design alludes to mystery and power and was developed by the artist E.Zhade.

The magic of the night attracted curious travelers from all ends of the Earth, but once they had seen the magic and beauty of the kingdom they found themselves unable to leave. The mysterious nature of the darkness and the shining stars captivated those who saw it... and they stayed there forever.

Fully customized back and Faces.
