
Orange and Rice Vase by Sorcier Magic

A large vase for a great magical effect, inspired by ancient oriental magic.

Show a large jar, remove the lid and put some rice into the container, replace the lid and shake it for a few moments.

Now tilt the jar towards the audience, the rice will have disappeared and instead of the rice there will be an orange or other similar fruit.

Made entirely by hand in fine wood, it measures 33 centimeters in height and 16 in diameter.

Perfect for accompanying effects with a mysterious narrative. Video instructions attached.
