
PIPS MATRIX by Jeki Yoo

VISUAL, UNIQUE, UNBELIEVABLE MATRIX ROUTINE

Perfect matrix!

Easy to do!

Show four blank cards and four plastic pips. Cover the pips one by one using the cards.

Magically, a pip disappears from your hand! This can even take place in your spectator's hand!

At the end, all of the pips have disappeared and are found back on the cards!

This is beautiful routine and excellent closer.

There are many similar tricks, but most of the 'Matrix-like' effects are usually difficult to do. So Jeki created a simple gimmick and routine to make this trick easier, even for beginners. You'll love performing this amazing effect!
