
Tumi Magic presents **PERFECT BITE (Japanese Yen)** by **Erick White**

After many years of seeing different versions of "bitten objects" none was as amazing as bite card, you could play with it, sign its card and give it to the spectator.

When I was a child, my mind exploded!

I like to do magic with bills and I wanted to make a version inspired by a magic classic and in the time of the pandemic, locked up at home for almost 1 year... I was thinking about how to do it, make demos and put it to the test. I was able to create **PERFECT BITE!**

It has many amazing features; It's small, flexible, portable, and perfect for an EDC for your wallet.

Using **Perfect Bite** you can borrow a bill from a spectator or your own, sign it, bite it and restore it. Then give it to your audience to be examined, it's amazing!

PERFECT BITE can be used in different countries:
