
Messymod (V2) by Art of Play - Pokerdeck

Messymod, short for Messy Modernism, is a minimal approach to graphic design conceived by Los Angeles based creative team, TRÜF. Born from their love of geometry, pattern, white space, Bauhaus, Miró, and perhaps a little too much caffeine.

The playing cards feature a completely custom design in trademark Messymod fashion, which can be described as minimal, modern, graphic, quirky, stylized, grotesque, delightful, and just plain weird.

Sustainably produced using FSC certified paper and vegetable-based inks on our trademark stock and finish. Suitable for all games requiring a standard deck.
