
Tumi Magic presents Sweet Bill by Snake

The art of transforming objects is incredible and even more so if it is done with organic elements that people know.

From the creator of Twister Flavor by Erick White presents his new project Sweet Bill. Now you can give an important message "why recycle?" while you do magic. The perfect combination!

It is a very visual transformation; everything happens in just the blink of an eye and the best thing is that all the bills can be examined after performing it.

Sweet Bill meets all its characteristics and for these reasons it is incredible. A perfect and visual execution for the entire audience, live presentations and on social networks.

Over the years we have seen the evolution of magic for organic elements. And Sweet bill is proof of this, people's reactions will surprise you.

I will show you two ways to perform it, the choice is yours.
