## **RUBIK SOLVED by Merlins**

Whether you perform Rubik cube magic or not, this brand new card effect is a must!

The magician cleanly fans out four playing cards. The cards faces are shown and each has a full color image of a mixed up Rubik cube on it. Two of the cards are handed to a spectator to hold. The magician shows his two cards once again to allow the spectators to see the mixed up cubes. Instantly, without any funny moves the magicians cubes are fully SOLVED! The spectator looks at the cards they have been holding and they are stunned to see that their cubes have also magically SOLVED!

Beautifully clean handling and VERY easy to do.
