# Shooting Star (Gimmicks) by G and Black Rose 1584

## The Story of 100 Stars

Since ancient time, kids in the East believe if you make 100 origami stars and store them in a glass jar, your wish will come true.

## Effect

A spectator is given a piece of "wish paper" to hold and make a wish. Just like the star itself it shoots across from one hand to the other and instantly becomes an origami star, granting their wish. Once a thought kept deep in their mind, but now materialized into something they can hold onto and remember...

Forever

## A Unique Piece of Magic

This really is a unique way to make an impact with your spectators, to do something that is more than just a visual, but emotional. It has true meaning...Shooting Star creates a unique experience. Their wish manifests itself into a real item they can hold, nurture, and become reality one day. A truly magical experience that they will remember for a lifetime.

## Includes:

- Secret gimmick set
- Carrying case
- Wish paper (approx. 100 pieces)
- 5 Origami stars
- 5 glass bottles
