## **Gum to Anything by Sansminds Magic**

What's real magic to you? Everyone has a different definition of what real magic is, but to us, it's magic you can do spontaneously with apparently no preparation.

As magicians, we know the importance of practicality, so we've come up with a practical way to turn a pack of gum into any small object to leave in your spectator's hand.

It can be a perfect transition routines, but it can also be a stand-alone eye-catcher.

**Gum to Anything**, the real magic in your pocket.
