
Comedy Funnel (Aluminum) by Mr. Magic

Here's a guaranteed laugh getter! Call a volunteer onstage and have them drink some water. Then place this funnel by their ear, or elbow, or wherever. Suddenly water starts pouring out of the funnel! You're in full control of when the water starts and stops. Place the funnel somewhere else and the water pours out again! So many comedy bits can be created with this clever device. Made of brass for durability. Audiences howl with laughter!
