
Costume Bag (Magician) by Bazar de Magia

A small bag is displayed to the audience. The magician shows the bag is empty, turning it inside out and allowing a member of the audience to feel the inside. A silk handkerchief is dropped into the bag and a child from the audience is asked to wave his hand over the bag making the handkerchief vanish. Try as he might, the child just can't make the handkerchief disappear... but he does end up making the handkerchief turn into a magician hat! In a flash, the entire bag is then turned into a magician costume that matches the hat and fits your helper perfectly!

The fabrics are of excellent quality and the design was made by the team of designers at the Bazar de Magia

You receive a very nice **Custom Bag**, choosing from 2 different designs available: Clown and Magician
