
Harmonica Chop Cup Black 2 (Silicon) by Leo Smetsers

We are pleased to announce the **redesigned** and **improved** Harmonica Chop Cup by Leo Smetsers.

It still has the same brilliant design that many pro performers have grown to love with our original version but we have a complete new mould magic and are now using the very high grade silicone. This new version of our ground breaking product is perfect.

The silicone cup is folded very small in size and can easily be easily fit in the pocket of your jacket or pants, or even in the handkerchief pocket of your jacket. A nice touch is to put it in the box of a set of cards. Tel your audience that yesterday, when bringing out the cards they responded: 'Oh no, please no more card tricks!', so you've instantly turned the cards into a cup!

The Harmonica Chop Cup is the ultimate packs small plays BIG item!

Get yours now!

Note: Chop Cup Balls are not included.
