Modern Mind Reading Magic Zee - DVD

Mentalism is not magic.

Mentalism is a way of demonstrating the supernatural ability for entertainment purposes rather than using it to take advantage of others. With virtually impromptu mentalism pieces, you can perform for crowds of any size at any time using only borrowed objects.

Modern Mind Reading Magic Z (MMRMZ) is a best-of of Zee's mentalism repertoire.

 In **MMRMZ**, you will find incredible routines that only use borrowed objects for intimate mentalism performances. If you cannot find paper to write on, then you can simply use napkins to demonstrate how great you are. If you can't get a hold of anything to write on, then you can even use borrowed phones to begin your private show. How more organic can this get!
