
Flash Cash 2.0 (Euro) by Alan Wong & Albert Liao

The instant blank paper to money trick now with super-visual, three-time changes!

You start with a pile of blank paper. Show both sides and, at your command, they all change into one dollar bills, then twenty dollar bills, and finally you just fan open the bills and they all change into one hundred dollar bills! Each time the bills are shown front and back before and after the change!

Completely gimmicked props! Very easy to do. This is something everyone will enjoy watching and doing. Just show them the money!

Available in USD version (\$1 to \$20 to \$100) and Euro version (E20 to E50 to E100)
