## **BIGBLINDMEDIA Presents John Bannon's Buzz Kill**

A packet trick that packs a STING!

**Buzz Kill** is a brilliant bit of commercial magic that packs small (just a thin packet of cards) but delivers a mighty wallop. The nine specially printed cards make a compact, self-contained routine that will slip in your pocket or wallet, and will always be ready to perform.

Like all the best packet tricks, this is super engaging (with a fantastic narrative hook), fooling as all hell, easy to perform and FUN!

John Bannon has been performing it since it's inception in 1994, and you'll see immediately why it has lasted two plus decades in his repertoire.

The included indepth tutorials will teach you Bannon's tried and tested handling for this routine, plus a 'Fractal' version (where you end completely clean and examinable) and an 'Oil & Queens' handling that adds a lovely visual display at the start as you show the cards.

This is a killer slab of magic that will drop in your pocket, and is sure to be a smash hit wherever you perform.

Brought to you by Bigblindmedia
