"I was like a little kid...it was BRILLIANT. It took me back to being a spectator."

- **Steve Faulkner**

This app is very practical...of course it requires some practice but it is very, very natural and I don't think any spectator would suspect a thing. PRACTICALITY: 9 out of 10...EFFECTIVENESS: no question 10/10 because this app is one that I ALWAYS use, on REAL spectators and even magicians, and with the right presentation the entire audience is speechless...You truly can perform this NAKED, you can personalize this effect with your OWN items...it is my top 3 magic apps on my phone."

- **Alex**
